

The Marvegos® Fine Art School combines classical studies in fine art with contemporary educational techniques in a successful series of programs that allow children to develop personal expression in a natural and self-motivating process. All of our classes are developmental and all works created in our classes are 'original'. Programs are designed with consideration to ages of children.

**Please note:** students attending all 4 school year sessions are eligible to show in our annual student art exhibit held in June. Every session includes an optional ceramics project.
